wurxa

FOR PARTNERS

Set up Wurxa for your client.
You install, we support the software.

Add your client's company from your partner account, connect their terminals and staff on a free 14-day trial, then invite them. They choose their own password and open a workspace that is already working. They never see what you paid.

WAY 1: REFER

- Send your personal link; your client signs up and pays us by card
- You earn 15% of what they pay in year one and 10% of their year-two renewal

WAY 2: RESELL

- You buy at your **partner price**, 15% off list, every year you keep the client, and set your own price
- Or hand over at the end of year one: your client pays us and you earn 10% of their year-two renewal

STEP BY STEP

1. In your partner account, open **Your client companies** and click **Add company**. It starts a free 14-day trial in your own Wurxa account, and trial emails are paused so they do not reach you.
2. Press **Finish setup** in your partner portal (or sign in at app.wurxa.com with the same email), answer the setup questions, add the sites, connect the terminals (see the setup checklist) and add the staff.
3. Confirm your own email, then click **Invite client**. Choose how they join: Owner (recommended), HR admin or IT admin.
4. Your client gets an email from Rafe, our assistant, and chooses their own password. The link works once, for 30 days, with one reminder after 10 days.
5. To resell, nothing to ask: your partner price (15% off list) applies by itself once you confirm your email, then you pay from **Plan & Billing** in your account.
6. At the end of year one, keep reselling, or tell us to hand over: your client becomes the paying owner, you earn 10% of their year-two renewal, and you can stay on for their terminals.

WHAT YOUR CLIENT SEES

- Their own workspace, with everything you set up
- Plan & Billing says **Paid for by** you, with no prices and no Pay button
- Plan questions go to you; they cannot remove you while you pay

WHO SUPPORTS WHAT

- **You:** terminals and their installation, on site: offline terminals, fingerprints or faces that will not read, network, power
- **Wurxa:** everything in the software, through Rafe in the app and our team on WhatsApp and Telegram, for your clients too

GOOD TO KNOW

- Commission is paid only on money your client pays. What you pay earns no commission: your margin is the partner price instead.
- From 150 employees, ask us for special pricing before you quote. We answer within 4 working hours.
- Nothing is handed over by itself, and a company only ever goes to someone who has signed in with their own password.
